Capital Construction Program

COUNTY OF LOS ANGELES CAPITAL CONSTRUCTION PROGRAM

The 2003-04 Proposed Capital Construction Program, as outlined in this Capital Projects/Refurbishments Addendum to the County's 2003-04 Proposed Budget (Addendum), reflects the County's ongoing commitment to expand, improve, replace, and renovate its capital assets and infrastructure.

This Addendum presents the appropriation and funding contained in the General Fund and certain Special Funds and Special District budgets for the acquisition, design, and construction of new capital assets and refurbishments to existing facilities. In accordance with State Controller guidelines, all Special Fund and Special District capital expenditures are reflected as capital projects. This does not apply, however, to certain infrastructure improvements such as roads, bridges, flood control channels, and water systems, which are exempt from the State Controller's requirements.

A model of the LAC+USC Medical Center Replacement Project. On December 3, 2002, the Board of Supervisors awarded a \$497.9 million contract to construct the 1.5 million-square-foot hospital.

Budgeting of Capital Projects and Refurbishments

Annual budgets for capital and refurbishment projects are based upon the anticipated costs that are required to complete each project. The nature and level of these future costs primarily reflect the project's phase within its overall life cycle. Project phases entail:

- Development/Programming — in which the need for the project and its scope are defined, funding sources are identified, and land acquired, if necessary;
- Design — during which construction drawings and environmental documents are prepared and permits are obtained from appropriate jurisdictional agencies; and
- Construction — which begins with the advertisement for construction bids and concludes with the County's acceptance of the completed improvements.

The amount of time required during each stage can vary greatly depending upon the complexity and size of the proposed project, the availability of funding for the capital and ongoing operating costs, and the number and type of required jurisdictional reviews. Generally, most capital projects or refurbishments require a minimum of 18 months to two years to complete. Many projects, especially those involving the construction of large, complex facilities or the extensive refurbishment of existing facilities, may require five years or more to complete. As a result, appropriation for projects is often budgeted over several fiscal years.

As a general rule, a project is initially budgeted at its total estimated project cost. Project appropriations are subsequently decreased in following years as design, consultant and

construction contracts are awarded and expenditures are incurred. Certain large projects, however, such as the LAC+USC Medical Center Replacement Project, certain Sheriff Stations, and the Department of Health Services' seismic retrofit improvements, are budgeted each year based upon the anticipated requirements for that year.

Project appropriations and funding levels recommended in the 2003-04 Proposed Capital Projects/Refurbishments Budget and displayed in this Addendum are summarized by Function, Supervisorial District, and Budgetary Fund or Department. A detail of each project also is provided by Operating Budget/Program (i.e., County Department or Special Fund).

2003-04 Proposed Capital Projects/Refurbishments Budget

The 2003-04 Proposed Budget contains \$558.5 million in appropriation for capital projects and refurbishments to meet high priority health, public safety, recreation, and infrastructure needs, as recommended in the Proposed Budget for the General Fund, Special Funds, and Special Districts. The total cost to develop, program, design and construct these projects is estimated at more than \$1.8 billion. The appropriation contained in the 2003-04 Proposed Budget represents the estimated budgetary needs in 2003-04 for 315 projects, including 15 new projects and 300 continuing projects. The recommended appropriation is offset, in part, by \$373.9 million in anticipated revenue and other financial resources that are available to support the projects. The following table provides a summary of the appropriation by fund:

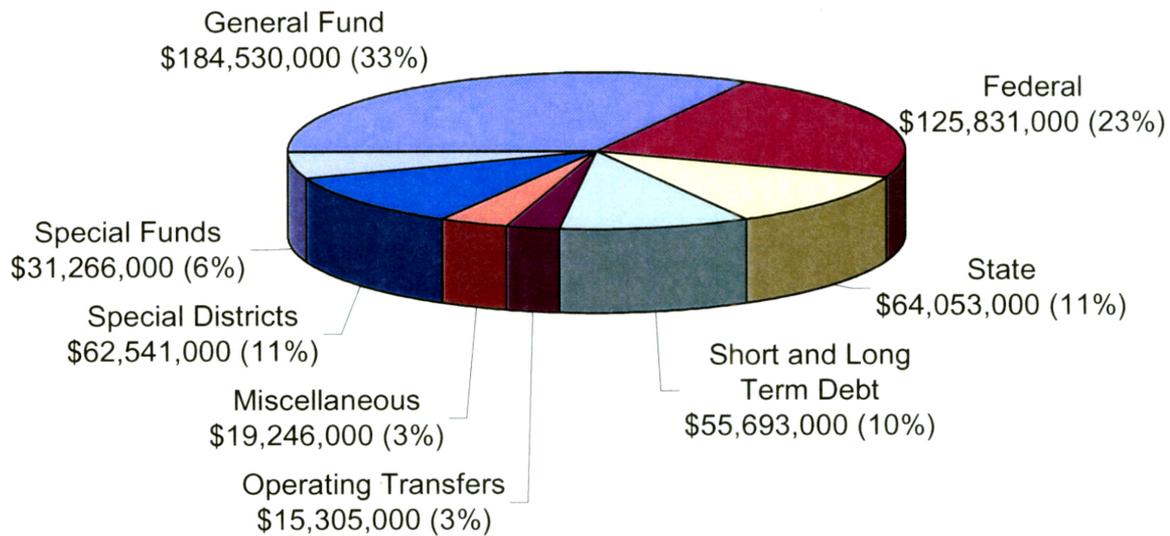

2003-04 CAPITAL PROJECTS/REFURBISHMENTS BUDGET BY FUND			
	BUDGET FISCAL YEAR 2002-03	PROPOSED FISCAL YEAR 2003-04	CHANGE FROM BUDGET

NET CAPITAL PROJECTS	\$ 218,016,000	\$ 184,530,000	\$ -33,486,000

The recommended appropriation is funded from a variety of sources, the largest of which is the County's General Fund. Since 1997-98, the Board of Supervisors has designated more than \$350 million of one-time funding from the County's General Fund to support the County's Capital Construction Program.

Of the \$558.5 million of capital projects and refurbishments recommended in the 2003-04 Proposed Budget, nearly \$184.5 million, or 33 percent, is funded through net County cost. Of that amount, \$166.2 million represents funding for projects approved and funded in prior fiscal years, while \$18.3 million represents the Chief Administrative Officer's recommendations for additional one-time funding allocations to provide sufficient appropriation in Fiscal Year 2003-04 for high priority projects.

The remainder of the proposed capital projects and refurbishments are funded with revenue of \$373.9 million, including federal and State grants, Special Districts, Special Funds, and other funding sources, as indicated in the following chart:

Capital Projects & Refurbishments Financing Sources

Major Changes from the Final 2002-03 Budget

The 2003-04 Proposed Budget reflects a net increase in appropriation of \$31.6 million from the Final 2002-03 Budget. This net increase is primarily the result of a significant increase in the budgetary requirements for the LAC+USC Medical Center Replacement Project in 2003-04 resulting from the award of a \$497.9 million contract in December 2002 for construction of the replacement hospital.

The increase in appropriation from the LAC+USC Medical Center Replacement Project is offset, in part, by estimated project expenses of \$161.8 million in 2002-03 for design and consultant

agreements, construction contracts, construction management, and acquisition costs on other ongoing projects as well as the completion of 77 projects, which no longer require budgeted appropriation in 2003-04.

During 2002-03, the County awarded dozens of construction contracts for projects in addition to the LAC+USC Medical Center Replacement Project. These construction contracts include the

East Los Angeles Library and the first phase of other improvements at the East Los Angeles Civic Center; the Kenneth Hahn Park soccer field; Magic Johnson Park lake shoreline; Fire Stations 72 in Malibu and 89 in Agoura; Los Padrinos Juvenile Hall housing units; Adventure Park improvements; and the Altadena Community Center.

The Altadena Community Center under construction. The new community center is scheduled to be substantially completed in June 2003.

Major projects completed in 2002-03 include the expansion of the animal shelter in Downey, seismic retrofits at Martin Luther King Jr. /Drew Medical Center and Olive View Medical Center; installation of female shower facilities at seven probation camps; development of Amigo Park; and the gymnasium at Jackie Robinson Park.

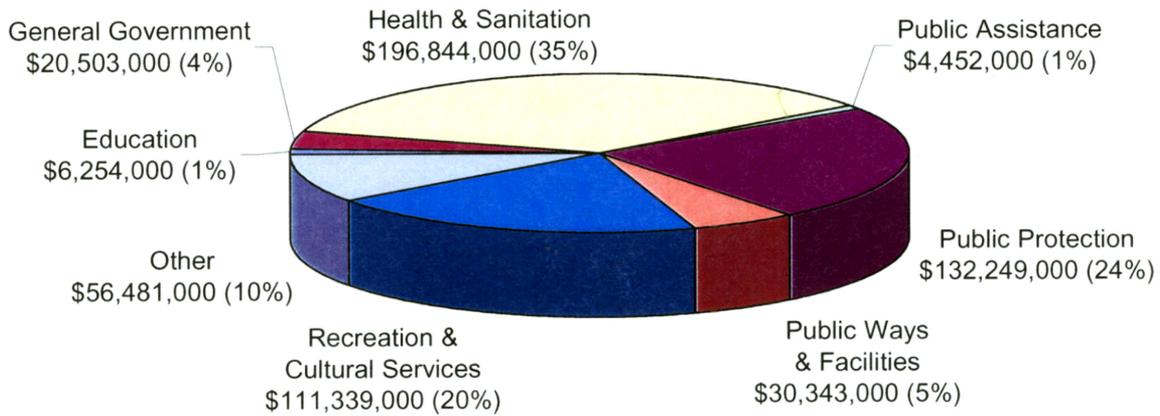

The 2003-04 Proposed Budget also includes the funding of 15 new projects, nine of which are new parks projects funded by the State Proposition 12 Bond Act and other revenue sources. The other new projects include the conversion of High Desert Hospital to a Multi-Service Ambulatory Care Center, the relocation of the Department of Health Services' Public Health Laboratory, and funding for the demolition of vacant buildings that represent a public safety hazard or attractive nuisance; remediation and mitigation of environmental hazards or hazardous material; and replacement or refurbishment of major building systems at various facilities.

2003-04 Proposed Capital Projects and Refurbishments by Function

The 2003-04 Proposed Budget's appropriation of \$558.5 million for capital projects and refurbishments provides funding to support 315 projects representing some of the County's highest priority needs in the areas of Education (Public Library), General Government, Health and Sanitation, Public Assistance, Public Protection, Public Ways and Facilities, and Recreation and Cultural Services.

Of the \$558.5 million in appropriation, projects related to Health and Sanitation account for \$196.8 million, or 35 percent, of the appropriation. The next largest category is Public Protection with \$132.2 million, or 24 percent, followed by Recreation and Cultural Services, with \$111.3 million, or 20 percent, as demonstrated by the chart on the following page.

**Capital Projects & Refurbishments
Appropriation By Function**

The capital improvements and refurbishments contained in the 2003-04 Proposed Budget include projects necessary to meet mandated requirements, as well as projects intended to support Countywide and departmental strategic plan goals to increase efficiency and enhance public services.

Education: Public Library

The 2003-04 Proposed Budget includes \$6.3 million in appropriation, offset in part by Public Library fund balance and accumulated capital outlay funds, for seven Public Library projects. Of these projects, the replacement of air-conditioning systems at various facilities is a continuing project throughout the County. The remaining projects include the programming and environmental document effort for a new library facility in Acton-Aqua Dulce, which will be submitted for a State Bond Act grant and identification and acquisition of a site for the La Crescenta Library.

Rendering of the East Los Angeles Library. On November 12, 2002, the Board of Supervisors awarded the construction contract for this replacement facility, which is part of the East Los Angeles Civic Center renovation.

General Government

The 2003-04 Proposed Budget includes \$20.5 million in appropriation for projects specific to general government purposes, as well as projects with Countywide implications. The recommended budget is highlighted by appropriation for the following projects:

- \$10.7 million for the redevelopment of the East Los Angeles Civic Center. Construction of the new East Los Angeles Library and the first phase of other improvements began in 2002-03, with additional phases anticipated through 2004-05; and
- \$6.0 million for the design of a new Data Center to house the County's primary data processing equipment in a seismically strengthened facility. The project is estimated to cost nearly \$65.0 million and design is anticipated to begin in Spring 2003 with completion of construction in early 2007.

The recommended appropriation also supports refurbishment projects for General Government departments and the seismic renovation of the former Torrance Health Center, which will be converted to office use for a department yet to be determined.

Health and Sanitation

The 2003-04 Proposed Budget includes \$196.8 million in appropriation for Department of Health Services projects. Of the total amount, \$158.1 million reflects the 2003-04 budgetary requirements for construction of the \$820.6 million LAC+USC Medical Center Replacement Project, which is fully funded from State and federal disaster aid monies, short and long-term financing, and fund balance in the LAC+USC Replacement Fund.

Site preparation work for the LAC+USC Medical Center Replacement Project, including demolition of existing buildings and major grading activities, was completed in November 2002. On December 3, 2002, the Board of Supervisors awarded a \$497.9 million contract for construction of the 1.5 million-square-foot replacement hospital, which will be completed in 2006-07.

The recommended budget also includes \$6.7 million in General Fund appropriation to provide design services for projects at Harbor-UCLA Medical Center, Martin Luther King Jr./Drew Medical Center and Olive View Medical Center to meet requirements under Senate Bill 1953 for structural and nonstructural seismic retrofit of acute care facilities by January 1, 2008. These projects began design in 2001-02 and are scheduled to complete construction in 2006-07 and 2007-08.

Martin Luther King Jr./Drew Medical Center. Design is underway to provide structural and non-structural upgrades to meet seismic safety requirements mandated by Senate Bill 1953. The improvements are scheduled to be completed by January 1, 2008.

The 2003-04 Proposed Budget also includes \$4.0 million, funded from one-time tobacco settlement monies, to convert High Desert Hospital from an acute care inpatient facility to a Multi-Service Ambulatory Care Center/Skilled Nursing Facility in support of the Health Services Department's System Redesign. In addition, \$8.8 million, funded from a federal bio-terrorism grant, is included for the relocation of the Public Health Laboratory.

The remaining projects include various refurbishment projects at existing facilities, including the renovation of four facilities that are funded in part with Federal Emergency Management Agency Hazard Mitigation grants; the development of a Women's Center of Excellence at Martin Luther King Jr./Drew Medical Center; and the continuation of design efforts for the Harbor-UCLA Medical Center Surgery/Emergency Replacement Project.

Public Assistance

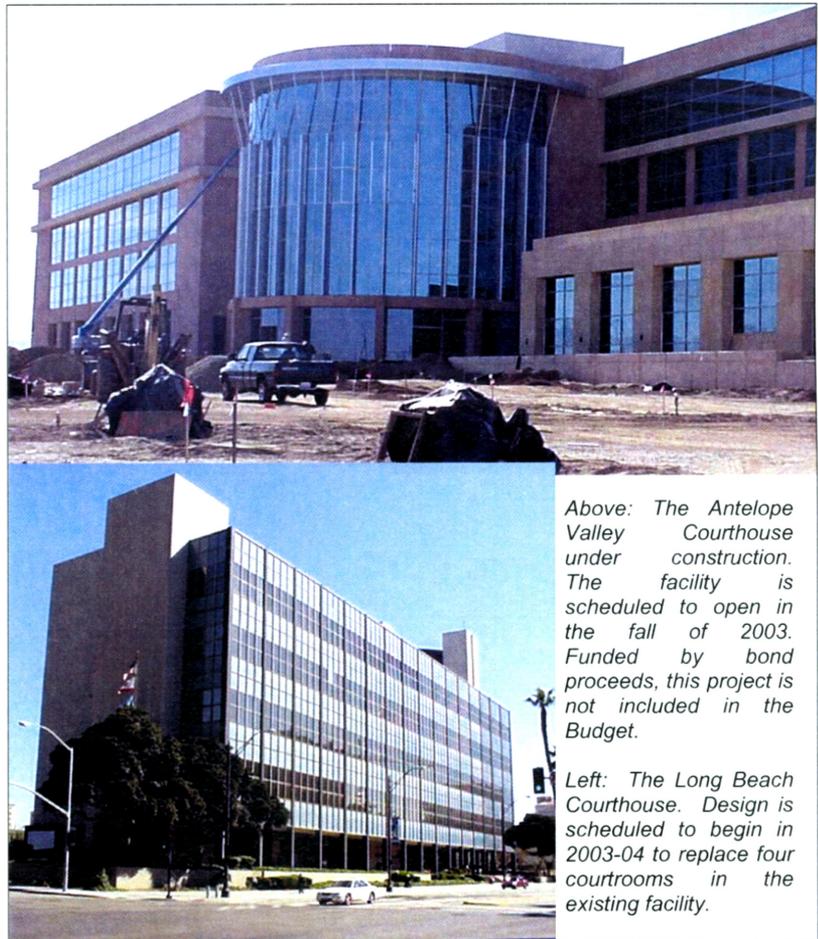

The 2003-04 Proposed Budget includes \$4.5 million of appropriation for projects supporting public assistance programs. The recommended budget includes \$2.5 million for construction of childcare facilities and \$1.9 million for renovation of Patriotic Hall. Funding for the reconfiguration of MacLaren Children's Center is eliminated in 2003-04 due to the closure of the facility.

Public Protection

The 2003-04 Proposed Budget includes \$132.2 million of appropriation for projects supporting the Sheriff, Fire and Probation Departments, as well as the Courts and other public protection agencies.

Coroner: The recommended budget provides \$9.5 million in appropriation for the reconfiguration and renovation of the autopsy and forensic laboratory space.

Courts: The recommended budget provides \$21.2 million in appropriation for projects at County court buildings, offset in part by funding from the Criminal Justice Facilities Temporary Construction Fund and the Courthouse Construction Fund. The recommended budget includes appropriation for the following projects:

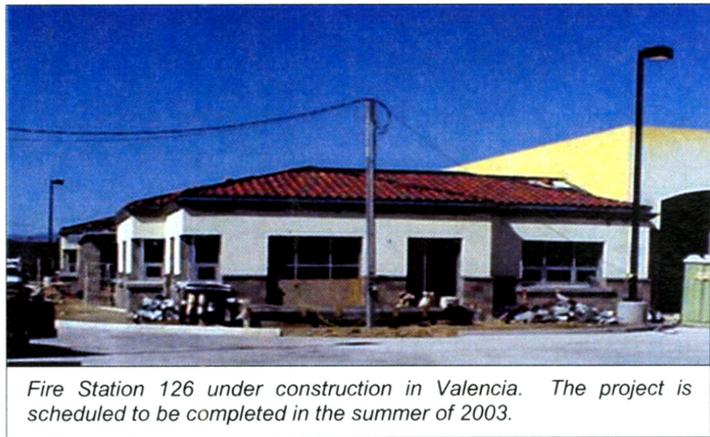

Above: The Antelope Valley Courthouse under construction. The facility is scheduled to open in the fall of 2003. Funded by bond proceeds, this project is not included in the Budget.

Left: The Long Beach Courthouse. Design is scheduled to begin in 2003-04 to replace four courtrooms in the existing facility.

- \$12.6 million for the \$14.0 million replacement of four inadequate courtrooms in the Long Beach Courthouse. Programming for the facility will be completed by the end of 2002-03 with design scheduled to begin in 2003-04;
- \$2.8 million for the construction of a permanent annex to replace three modular courtrooms at the Santa Monica Courthouse;
- \$1.2 million for construction of a new \$1.5 million jury assembly room at the Foltz Criminal Justice Center (formerly the Criminal Courts Building); and
- \$0.7 million to complete the \$2.5 million refurbishment of the Mental Health Court, which is under construction and scheduled for completion in October 2003.

The remaining appropriation of \$3.8 million supports a variety of projects at various court facilities throughout the County.

Fire Department: The Proposed 2003-04 Budget reflects \$13.7 million in funding for facility renovations and improvements, completion of several projects, and land acquisition, design, and construction of new facilities. The total includes \$7.6 million, offset by developer fees, for land acquisition, development, and construction of new fire stations to serve the high-growth areas of Stevenson Ranch, Valencia, Santa Clarita, and Palmdale and \$0.9 million to complete construction of fire stations in Malibu and Agoura.

Fire Station 126 under construction in Valencia. The project is scheduled to be completed in the summer of 2003.

The remaining appropriation provides funding for a variety of refurbishment projects at Fire Department facilities, including two fire camps.

Probation Department: The recommended budget provides \$41.5 million of appropriation, fully offset by State grants and other revenue sources, for Probation Department projects including:

- \$34.4 million for construction of two 120-bed housing units and an 85-car parking structure at Los Padriños Juvenile Hall. The \$37.1 million project began design in 2002-03 and is scheduled to complete construction in 2004-05; and
- \$5.8 million to complete construction of two 120-bed housing units and a 140-car parking structure at Central Juvenile Hall. The \$36.5 million project is scheduled to be completed in 2003-04.

The remaining \$1.3 million in appropriation provides funding for the completion of the Eastlake Court entry project and procurement of modular trailers for classrooms at Barry Nidorf Juvenile Hall and modular medical facilities at Central Juvenile Hall and Los Padriños Juvenile Hall and other minor projects.

Sheriff Department: The 2003-04 Proposed Budget includes \$43.3 million in appropriation, offset in part by available one-time funds, for various projects at Sheriff Department facilities. The recommended budget includes appropriation for the following projects:

- \$19.2 million for construction of the Palmdale Sheriff Station, which is scheduled to begin construction in 2003-04 and to be completed in 2004-05;
- \$8.0 million for the relocation of the Special Enforcement Bureau from its current location in East Los Angeles to the Sheriff's Biscailuz Training Center. The project began design in 2002-03 and is scheduled for completion in 2005-06.
- \$3.7 million for a feasibility study and design of a new Sheriff station and vehicle service building in the unincorporated area of Athens as a cost-effective alternative to replacement of the Lennox Sheriff Station;
- \$1.8 million for various renovation projects at Peter J. Pitchess Honor Rancho;
- \$1.3 million for the installation of water clarifier systems at 14 Sheriff stations throughout the County; and
- \$1.2 million to complete construction of the San Dimas Sheriff Station, which is scheduled to begin construction in the Spring/Summer of 2003 and be completed in 2004-05.

The remaining \$8.1 million in appropriation supports various refurbishments and capital improvements, including the establishment of a satellite Sheriff station in East Los Angeles and soil remediation projects at the Industry and Carson Sheriff Stations.

Public Ways and Facilities

The 2003-04 Proposed Budget includes \$30.3 million in appropriation, fully offset by revenue from State and federal grants, special funds and other sources, to provide improvements to Department of Public Works' facilities and the County's infrastructure. The recommended appropriation reflects the following projects:

- \$17.4 million for the seismic upgrade of the Department of Public Works headquarters building, which is scheduled to begin construction 2004-05;
- \$3.6 million for land acquisition and various improvements at the County-operated airports;
- \$1.3 million to complete construction of the Grand Avenue Realignment and Pedestrian Improvements Project. The \$14.7 million project will realign Grand Avenue between Temple Street and Second Street in downtown Los Angeles to enhance pedestrian access along Grand Avenue, to the County Mall and to the Music Center.

A rendering of Grand Avenue in front of the Music Center upon completion of the Grand Avenue Realignment and Pedestrian Improvements Project. Construction of the project began in March 2003. Rios Associates, Rendering by Doug Jamieson.

The project began construction in March 2003 and is scheduled to be completed in December 2003; and

- \$1.4 million for construction of a traffic management center, which is scheduled to start construction in 2003-04.

The remaining appropriation of \$6.6 million provides funding for improvements to various facilities supporting the Flood Control District, the Road Division, and the Sewer Maintenance District.

Recreation and Cultural Resources

The 2003-04 Proposed Budget includes \$111.3 million of appropriation, offset in large part by Regional Park and Open Space District, State and federal grants, as well as other revenue sources, for park, beach and other cultural improvement projects.

Beaches and Harbors: The recommended budget provides \$25.6 million in appropriation for Department of Beaches and Harbors projects, including:

The Jesse Owens Park new pool building under construction. Construction began in June 2002 and is scheduled to be completed in the fall of 2003.

- \$7.6 million for the replacement of facilities at Dockweiler State Beach, which are anticipated to begin construction in the fall of 2003 and be completed in 2005-06;
- \$7.2 million for the renovation and construction of facilities at Will Rogers State Beach, which will be completed in two phases;
- \$2.9 million for the construction of a new youth center for the Water Awareness, Training, Education and Recreation (W.A.T.E.R) Program at Dockweiler State Beach;
- \$2.6 million for the renovation and construction of amenities at Venice Beach, which is under design and scheduled to complete construction in 2005-06; and
- \$2.1 million for construction of a water infusion system at Marina Beach including the removal and replacement of existing sand.

The remaining appropriation of \$3.2 million provides funding for a variety of refurbishments and improvements at various other County beaches.

Parks and Recreation: The recommended budget includes \$78.3 million of appropriation for 128 improvement projects at Department of Parks and Recreation facilities, including the acquisition of additional open space resources. The recommended budget includes appropriation for the following projects:

- \$6.0 million for the \$22.0 million replacement of the Hollywood Bowl shell and \$2.1 million for play areas, access improvements and parking at El Cariso Community Regional Park;
- \$3.1 million for the development of a gymnasium/ community building at Loma Alta Park and \$2.3 million for the construction of nature centers at Vasquez Rocks and Placerita Canyon Natural Areas;
- \$4.8 million for habitat restoration and refurbishment of the Nature Center and development of a soccer field at Whittier Narrows Regional Park;
- \$950,000 for expansion of the senior center at Steinmetz Park and \$3.1 million for renovation of the bathhouse and landscaping at Cerritos Community Regional Park; and
- \$1.3 million for improvements to Earvin Magic Johnson Park and \$1.6 million for development of a community center at Washington Park.

A rendering of the new Hollywood Bowl shell. A portion of the shell will be fabricated off-site. The new shell is scheduled to be in place by the start of the 2004 Summer Season.

The remaining appropriation supports a variety of refurbishments and capital improvements at various park facilities throughout the County.

Other Cultural Facilities: The remaining appropriation of \$7.4 million includes small refurbishment projects at other County cultural facilities and \$7.0 million for design and development of plans to renovate and/or redevelop the County's El Pueblo de Los Angeles site and surrounding properties. This project is currently in the development stage and undergoing an environmental assessment.

Other Projects

The 2003-04 Proposed Budget includes funding for the demolition of vacant County buildings that represent a public safety issue or attractive nuisance; remediation and mitigation of environmental hazards and hazardous material in conjunction with demolition and/or renovation of existing buildings and sites; and replacement or major refurbishment of building systems in the County's aging building stock.

No specific locations or facilities have been identified for use of these funds and, therefore, the funding is not identified to a specific function. Upon identification of the highest priority needs, funding will be reallocated to specific facilities.

Capital Projects Addendum Format

The Addendum organizes and presents projects under each operating budget or program heading as either “Funded” or “Unfunded” based on the Chief Administrative Officer’s funding recommendations. Such recommendations are based upon each project’s level of priority with respect to health and safety requirements, legal commitments, and operational needs, as well as the availability of viable and sufficient financial resources to fund the project’s completion and any future operational expenses.

“Funded” projects include those projects that have been previously approved by the Board of Supervisors and are currently funded and underway, as well as new projects that address a department’s critical capital needs and which can be sufficiently funded.

The Operating Budget/Program detail in the Addendum provides the following information for each “Funded” project:

- the facility or location of the project and the project name;
- the phase in which the project is anticipated to be as of July 1, 2003;
- the month and year that the project is anticipated to complete construction;
- a summary of the estimated project cost by cost category;
- the total estimated project cost;
- actual project expenditures and revenue in 2001-02;
- estimated expenditures and revenue in 2002-03;
- final budgeted appropriation and revenue in 2002-03;
- the department’s request for appropriation and revenue in 2003-04;
- the Chief Administrative Officer’s proposed appropriation and revenue in 2003-04;
- the change in appropriation and revenue from the 2002-03 final budget; and
- a narrative description of the project, its current status, and the source(s) of project funding.

“Unfunded” projects include capital needs that departments have identified and requested as part of their 2003-04 budget requests, but which are not being recommended for funding by the Chief Administrative Officer. These projects require further study to properly assess the nature and the extent of the capital need, the appropriateness and feasibility of proceeding with the project, and the viability of identified funding resources, if any, for the capital costs and any ongoing operational costs associated with completion of the project.

Construction of a water infusion system to increase water circulation and the replacement of existing sand at Marina Beach. Design will commence upon completion of the Water Quality Improvement Plan identifying mitigation strategies for improving the water quality at Marina Beach. The improvements will be funded by a grant of \$1.750 million from the Governor's Clean Beach Initiative and \$350,000 will be transferred from the Marina ACO fund for the 20% match.

Construction of a strongback reinforcement system which restored the structural integrity of 728 seawall panels at Marina del Rey and the installation of a cathodic protection system which will mitigate further deterioration of the seawall and extend the useful life of the seawall for another thirty to forty years. This project was funded primarily through a State loan and the Marina Accumulated Capital Outlay Fund.

Project Cost Summary	Funding was originally intended for acquisition of a temporary additional juvenile traffic hearing room for the San Fernando Courthouse until opening of the Chatsworth Courthouse. Temporary space proposals were reviewed and rejected due to court security requirements. Project is funded by prior year Third District Capital Project net County cost. The funding remains available for other projects specified by the Third District.

Project included the refurbishment of public restrooms and drinking fountains and installation of automatic entrance doors to meet ADA requirements. Project canceled due to the closure of the clinic under Health Services Strategic Plan. Project was funded by prior year First District Extraordinary Maintenance net County cost and is pending reallocation to another First District project.

Project was to consolidate Pediatric Intensive Care Unit on the second floor of the Women's and Children's Hospital to address licensing and code issues. Project canceled due to insufficient funding. Appropriation and net County cost transferred to support mandated seismic work at DHS hospitals under Senate Bill 1953.

Construction of a 1.5 million square foot state-of-the-art replacement hospital on the LAC+USC Medical Center campus. Site preparation work including demolition of buildings, street improvements, relocation of the entrance to the outpatient building, and grading was completed in 2002-03. The construction contract for the major building components was awarded in December 2002. Actual construction on the major building components began in March 2003 with completion targeted for January 2007 and final acceptance by April 2007. The replacement project is anticipated to have a positive fund balance at year-end based upon anticipated expenditures and revenues in 2002-03. Project is funded by Federal and State disaster aid monies, Commercial Paper Proceeds, and fund balance.

Completion Date:	N/A						
Project Cost Summary	Acquisition of 2 lots (approximately 25 acres) of an 8-lot subdivision located near the intersection of Avenue T8 and 32nd Street East for park purposes and protection of wetlands. Project was cancelled due to destruction of wetlands by the property owner. Surplus 2002-03 revenue reflects an adjustment for prior year expenditures that were funded by net County cost. Project was funded by a State grant from the Habitat Conservation Fund and the Regional Park and Open Space District. Reassignment of the unused State grant to another eligible project will be requested by the Department.

Installation and construction of a sewer line and pump house required by the City of La Verne to accommodate a new restroom facility at the Fred Palmer Equestrian Center. The new sewer line and pump house will also benefit the existing facilities by reducing water utility costs at Probation Department Camps Afflerbaugh and Paige along with Fire Department Camp 17 and the golf course. Design is anticipated to commence in Fall of 2003. Project is funded by the Proposition 12 - Per Capita Grant Program and a contribution of prior year Probation Department funds deposited in the Marshall Canyon Golf Course Capital Improvement Project Trust Fund.

Project provides for the demolition of two housing units and two classrooms and the construction of two 120-bed housing units and an 85 space parking structure, based on the same design as the housing unit project at Central Juvenile Hall. Site adaptation of the CJH plans is currently underway. Demolition of existing buildings began in March 2003. Construction is scheduled to begin in May 2003. Project is funded from a State Board of Corrections grant and a County match of net County cost.

Replacement of the existing facility as part of the previously proposed replacement of the Lennox Sheriff station, which is adjacent to the Library. The County is studying the feasibility of constructing a new Sheriff station in the unincorporated Athens area rather than replace the Lennox station. As a result, replacement of the Lennox Library is no longer recommended.

Refurbishment and reconfiguration of all office space at the headquarters building. Construction will be completed in phases. This action is necessitated by the reorganization and space requirements of several divisions, obsolescence of existing workstations due to technological change and ergonomic requirements and the wear and tear of existing furnishings from 13 years of occupancy in the headquarters building. Recommended appropriation in 2003-04 is to complete Phase III of this multiyear project. Project is funded by Flood Control District fund balance.

HEADQUARTERS BUILDING (Cont.)							
Project Phase:	Design						
Completion Date:	06/2006						
Project Cost Summary		Renovation of the headquarters parking lot as a concept/demonstration project to demonstrate the potential for collecting, transporting, cleaning and/or refining parking lot water runoff before distribution into the storm drain system. Award of construction contract is anticipated in January 2004. The total project budget of \$6,551,551 was adopted on 06/11/2002. 2002-03 estimate includes design. The proposed 2003-04 budget provides funding to complete design and obtain jurisdictional approvals. The remaining \$5,707,000 will be budgeted in future years. Project is financed from a donation of materials and Flood Control District fund balance.
